Last Date to Apply: 15th June 2024

BACKGROUND

In the dynamic landscape of India's burgeoning economy, renowned for its extensive scientific and technical talent pool, the need for robust Innovation and Intellectual Property Rights (IPR) infrastructure is paramount. Despite standing among the top five nations globally, India grapples with a stark disparity in generating Intellectual Property Rights and establishing a significant global footprint in cutting-edge technology development and brand recognition. This deficiency is glaringly reflected in our low standing on the Global Innovation Index (GII), Patent Filings and their Commercialization. The primary impediments to India's success in the realm of IPR stem from a lack of awareness, a shortage of proficient IP professionals, and a dearth of facilities offering high-quality education and training in this critical domain.

Intellectual property, with its intricate structure and myriad challenges, necessitates a nuanced understanding. This course seeks to address these challenges by contextualizing intellectual property law within the broader realms of law, legal practice, and business. Throughout the program, students will delve into mastering the intricacies of this discipline, gaining expertise that extends beyond the academic realm to encompass practical applications in the professional landscape. The curriculum is meticulously designed to align with the contemporary demands of intellectual property law and practice, affording students the opportunity to specialize in specific niches within the industry.

With the rich experience of the DPIIT-IPR Chair, Centre for IPR, Andhra University in the area of IP education and Training, the Post Graduate Diploma in Intellectual Property Rights offered, comprehensively covers all substantive intellectual property regimes. To ensure the utmost relevance and excellence, the course is crafted and delivered through a collaborative effort between distinguished academics and seasoned practitioners. Emphasizing a holistic approach, this program aims to equip students with the knowledge and skills necessary to navigate the complexities of intellectual property in the ever-evolving global landscape.

COURSE OBJECTIVES

- Provide high-quality education and hands-on training encompassing all aspects of intellectual property rights, including patents, industrial designs, trademarks, copyrights, and geographical indications.
- Cultivate the skills to analyse technical-legal decisions in intellectual property through effective oral and written communication, presentation of legal discussions, and professional training.
- Develop the ability to file different types of intellectual properties and offer insightful advice to clients.
- Impart advanced and comprehensive knowledge in intellectual property rights, enabling successful graduates to confidently pursue careers as IP experts, educators, executives, consultants, or researchers.

DURATION OF THE COURSE

- The duration of the course will be one year after Graduation. It is intended to begin the course in July 2024.
- The proposed course is non-residential type Post-Graduate Diploma Program in Intellectual Property Rights involving blended learning.
- The course shall comprise of 2 Semesters with 9 courses (including one Research Project) with each paper holding 4 credits including reading, assignments, Q&A, evaluation, and project work. Each semester duration would be 15 weeks.

ELIGIBILITY CRITERIA

- Bachelor's Degree or an equivalent Degree in any discipline from any recognized University; or
- Candidates appearing for the final year examination of Graduation are also eligible to apply, or
- Candidates who completed three years of their 5-year integrated LL.B. Degree programme in Law are also eligible to apply.
- The course will be open for all persons from anywhere in India or abroad, having the above qualification, and may include students, professionals from various public and private industry sectors, academic personnel, legal professionals, Government officials, persons from the R & D sector, media personnel, etc.
