WORKSHOP THEME

This workshop is primarily meant for young and aspiring researchers at all stages and for those who are interested in latest developments in the field of Vibrations and Structural Health Monitoring. In this workshop, there will be lectures from the **top researchers** in the country, covering a broad spectrum of theoretical and practical aspects. The speakers will not only talk about their current research, but also through some challenges at the participation and show the way forward. There will also be senior industrial experts sharing their experiences and lead young researchers.

It is very fitting to conduct this kind of workshop in the Department of Mechanical Engineering, AUCE (A), Visakhapatnam, where research in the field of Vibrations and Structural Health Monitoring is continuing since several years.

ANDHRA UNIVERSITY ENGINEERING COLLEGE (A)

Andhra University is a premier Institute of higher education in India, was established in 1926. Sir Dr. C.R.Reddy was the founder Vice-Chancellor of the Andhra University. The present Engineering College at Visakhapatnam was sanctioned by the Government of Composite Madras State in 1946 and initially was located at Cocanada, now called as Kakinada. After the separation of Andhra State in 1953, the Department of Engineering with Mechanical, Civil, and Electrical Engineering sections was started as a part of Andhra University. Over the years, the Andhra University College of Engineering grew from strength to strength and at present offers 15 UG and 28 PG Programs.

ABOUT THE DEPARTMENT

The Mechanical Engineering Department has started post Graduation course in Machine Design during 1963. The department has been helping the local in service diploma holders to improve their qualification since 1969, by offering B.E (Mech.) Part Time course. The department started a part-time diploma course in Industrial Engineering in the year 1973. The various PG courses presently continuing in the department are M.Tech (Machine Design), M.Tech (Industrial Engineering), M.Tech (Heat Transfer), M.Tech (CAD/CAM) and M.Tech (Thermal Engineering).

WHO SHOULD ATTEND

- *Students pursuing research in the field of Vibrations and Structural Health Monitoring and related technologies.*
- *Faculty members with a background of Mechanical, Civil, Machine Design, CAD/CAM, Manufacturing Engineering disciplines with interest in Vibrations and Structural Health Monitoring and related technologies.*
- *Researchers working in National laboratories and Engineers working in public and private sector companies with interest in Vibrations and Structural Health Monitoring and related technologies.*

KEY NOTE LECTURES ARE BY

Dr. B. Purna Chandra Rao, Head NDE Division, IGCAR, Kalpakkam

Prof. S.S. Rao, University of Miami, U.S.A

Prof. J. Srinivas, NIT, Rourkela

Dr. Krishna Dutt , BHEL R&D

Dr. T. N Suresh, GTRE, Bangalore

Prof. P. Srinivasa Rao, A.U.C.E (A)
