INTRODUCTION

College of Engineering, Andhra University, established in the year 1955 with four departments has grown into 15 departments. The institute is popular worldwide for its quality education, research and consultancy services. The institute has been top ranked among the university engineering colleges of Andhra Pradesh based on recent survey by Outlook Magazine. The Department of Civil Engineering is very active in spreading technological information among students, researchers and practicing engineers by way of organization of Symposia, workshops, conferences, training programmes etc. The laboratory facilities and qualified faculty of the department make it an ideal place of learning of Civil Engineering.

ACCESS-13

Andhra University Creative Civil Engineering Students Symposium (ACCESS) is organized every year as part of Engineer’s day celebrations in commemoration of great Civil Engineer, Sir Mokshagundam Visvesvaraya. The symposium is aimed at bringing together budding engineers onto a common platform to exchange latest information in Civil Engineering field. The event gives an opportunity to the participants to assess themselves relative to the students of other engineering colleges. The event has been planned with paper presentations in three sessions followed by technical quiz competition. Each paper presentation session will be preceded with an Expert lecture by an eminent academician or a practicing engineer. The themes of the paper presentations and details of other activities are given below.

Session 1: Structural Engineering
- Earthquake resistant structures
- Blast resistant structures
- Alternative materials for aggregates used in construction
- Special concretes
- Special Structures

Session 2: Environmental & Water Resources Engineering
- Urban stormwater management
- Water Resources Management in Climate change scenario
- Solid and hazardous wastes management
- Energy, sustainability
- Green technologies
- Rain water harvesting
- RS & GIS Applications
- Occupational health hazards

Session 3: Geotechnical and Transportation Engineering
- Applications of Geo-synthetics in Infrastructure projects
- Ground Improvement techniques
- Latest trends in Pavement designs
- Transportation Systems Management

Technical Quiz, Guest lectures, Workshops, Cultural activities.
