CCRAS POST DOCTORAL FELLOWSHIP PROGRAMME

Central Council for Research in Ayurvedic Sciences (CCRAS), Ministry of Ayush
Govt. of India, Janakpuri, New Delhi-110058

1. INTRODUCTION:

The Central Council for Research in Ayurvedic Sciences (CCRAS), under Ministry of Ayush, is an ensemble of 30 tangential institutes. This apex body in India is amongst the leading research organizations in the field of Ayurveda i.e. Indian heritage system of medicine. Over the years, the council is devotedly working for undertaking, coordinating, formulating, developing and promoting research on scientific lines in Ayurvedic Sciences through its different peripheral units and also through collaborative studies with various Universities, Hospitals and Institutes. The research activities of the Council include Medicinal Plant Research (Medico-Ethno Botanical Survey, Pharmacognosy and Tissue Culture), Drug Standardization, Pharmacological Research, Clinical Research, Literary Research, Documentation and Health Care Research Programs through various outreach activities.

2. ABOUT THE SCHEME:

Ayurveda is currently bearing in mind as an alternative to modern medicine in respect of number of diseases therefore much thrust has been given to the systems of Ayush as well as Ayurveda, through many initiatives by the Government. A modern approach towards research linked with outcomes is one such initiative being taken by the Ministry of Ayush. Availability of quality research manpower is unarguably one of the essential components to achieve this intent. In this milieu, Ministry of Ayush through its Research Councils has already envisaged Ayush Ph.D. fellowship programme to meritorious scholars from Ayush systems. At this instant as an auxiliary inventiveness “CCRAS Post Doctoral Fellowship Programme” has been instituted to identify promising young researchers with innovative ideas and provide them with training and research opportunities in different multidisciplinary areas. This scheme is duly approved by the Secretary, Ministry of Ayush, Government of India in his capacity as Chairperson of **Executive Committee** along with the approval of Standing Finance Committee (**SFC**) and Scientific Advisory Board (**SAB**) of the CCRAS (copy of approvals are appended at **pages I to III**). The scheme aims at facilitating their transition from mentored to independent research career. **CCRAS intends to offer ten (10) such fellowships every year** to promising fresh PhD/PG degree holders of Ayurveda and Ph.D. degree holders of related science disciplines at reputed organizations like CSIR, ICMR, DBT, National Institutes, recognized Universities and National Institutions of Ayush etc. These fellowships will be allocated by Director General, CCRAS, depending upon the needs of the Institute/Centre.

3. OBJECTIVE:

3.1. CCRAS Post Doctoral Fellowship is aimed to identify motivated young researchers of Ayurveda and related science disciplines to provide them support for doing research in frontier areas of Ayurveda and to enhance their academic and research capabilities. The fellows will work under a mentor, at reputed organizations like CSIR, ICMR, DBT, National Institutes, recognized Universities and National Institutions of Ayush etc. for the tenure of two (2) years.

3.2. This Post Doctoral Fellowship also provides an opportunity to acquire new skills, broaden one's horizon and offers a platform for transiting into cross-disciplinary areas, and it is hoped that this training will provide them with a platform to develop as an independent researcher.

4. Research Areas:

4.1. The Scheme encourages systems research on any subject focusing on following priority areas –

- (a) Network Pharmacology/ In-silico study
- (b) Studies on Drug-Drug interaction
- (c) Toxicogenomics
- (d) Pharmaco-Informatics in Ayurveda System of Medicine
- (e) Ayurveda Biology / System Biology
- (f) Validation of Ayurvedic Principles
- (g) Drug development (Pre-clinical/Clinical studies) for unmet medical needs
- (h) Ayurveda Dietetics and Pharmaco-nutrition
- (i) Development of Ayurveda based Diagnostic tools
- (j) Biomedical Instrumentation
- (k) Agro-techniques and cultivation protocols for RET Species including Good Agricultural and Collection Practices (GACP)
- (l) Bio-informatics/ Digital Technology
- (m) Research on neglected drugs of Rasa Shastra in all respects including preparations of formulations, chemical analysis, Pre-clinical safety & efficacy studies, genomics safety profile in some drugs, clinical studies etc. and involvement of reputed industries may also be done as per requirement.
- (n) Research on Co-relation of Poorvaroopas with Disease markers.
- (o) Studies on injectable forms of Ayurvedic medicines and exploration of clinical dosage form and uses of classical injectable ayurvedic medications like Suchikabharana Rasa.

ANNEXURE – I: RESEARCH PROPOSAL FORMAT

Available also in the '**Essential Downloads**' Section of the CCRAS PDF Portal (<https://pdf.ccras.org.in/>) for download. You can also access it directly via the following link: <https://pdf.ccras.org.in/form/>

Other than the mandatory information accompanying each application, candidates should submit their research proposal in two parts:

A) Abstract of the research proposal (about 300 words).

B) Detailed research proposal (about 3000 words). An indicative outline for the detailed research proposal is given below:

- 1. Title:** The research proposal should have a clear, meaningful and concise title reflecting the scope of the investigation.
- 2. Introduction:** The research proposal should begin by clearly stating the research problem to be investigated in the light of its theoretical and/or empirical context in the relevant area.
- 3. Objectives of the Study:** The general aim of the study as well as its specific objectives should be clearly stated in the proposal.
- 4. Research Questions or Hypotheses:** Given the conceptual framework and the specification of dimension, the specific questions to be answered through the proposed research should be sharply formulated. In the case of an explanatory research design, specification of variables and positing of relationship among them through specific hypotheses must form a part of the research proposal.
- 5. Review of Literature (National & International):** The proposal should summarize the current status of research in the area and major findings, including the researcher's own work in the area. Existing empirical findings may also be discussed. The overview should clearly demonstrate the relevance as well as inadequacy of existing findings or approaches and provide a rationale for the proposed study.
- 6. Research Methodology:** The researcher must describe in detail (a) the scope and coverage of her/his study; (b) approach and methodology with adequate justification and Timeline. Emphasis should be given to bringing out innovativeness in approaches proposed to be followed. The detailing of the methodology may include research design, data to be collected and empirical and analytical methods to be used. The description of the methodology must be clearly linked to the aims of the research and the research questions/hypotheses of the study.
- 7. Relevance and Anticipated Outcomes:** The proposal should include a statement on the relevance of the study and the anticipated outcomes. The proposed research work should be

fulfilling the regulatory requirement of Ayurveda and should have an impact on advancing the understanding and application of existing knowledge of Ayurveda. It should bring out the significance of the research problem, the contribution which the proposed study is expected to make to theory and to methodology as well as its practical importance to society and policy making. It should also describe the proposed outputs from the study (Books, research papers, occasional papers with themes etc.)

- 8. Tentative Cauterization (Summary):** Cauterization (summary) should be clearly spelt out in the research proposal.
- 9. Bibliography, References and Citations:** should be prepared in Vancouver referencing style.
