CHAPTER - I
SCHOOL OF DISTANCE EDUCATION
A BRIEF PROFILE

Distance Education emerged as an effective alternative method of Education. Distance Education permits greater flexibility, and it is learner centered.

The School of Distance Education, formerly School of Correspondence Courses of Andhra University was established on 1st July, 1972 with the objective of increasing the access of higher education to disadvantaged sections of the society. Initially B.A. and B.Com. courses were offered with the assistance of UGC. Liberalised admission into B.A. / B.Com. Courses under open system was introduced in 1976.

The School of Distance Education is run by experienced teachers and educational administrators who always strive to reach high academic standards. The core academic staff of the School will carry on the academic activities with the help of the well experienced teachers in their respective fields, who are working in this University as well as in other Universities.

A student who is enrolled into this School studies the same syllabi, and is awarded the same degree as in the case of regular students of this University.

A student after admission into the School of Distance Education receives study material periodically in all the subjects, supplemented by Week-end-cum-Personal Contact Programmes at various centres to facilitate face to face interaction between the teachers and students. The School invites well experienced teachers to participate in these Personal Contact Programmes besides our academic staff. During these programmes teachers will give an extensive review of the subjects and clarify the doubts of the students.
