You need to give a definition of terms if you did not include these in the title section, and explain how the details of the report are arranged.

**Body** – This is the main section of the report. There needs to be several sections, with each having a subtitle. Information is usually arranged in order of importance with the most important information coming first.

The summer placement aims at achieving the following objectives: (a) Application of knowledge and techniques learnt in the first year to real life business problems and make them better prepared to enrich their learning in the second year. (b) Appreciating the inter-linkage among different functions and developing a realistic managerial perspective about organizations in their totality. The students should take the internship seriously.

They are expected to diligently in the job so that the internship converts naturally into a pre-placement offer. A faculty member will work closely with the company to define the scope of the internship and ensure proper understanding of the terms of engagement by all concerned.

The student should be ready to not only learn from the business practices in the company but also present a professional front i.e. being punctual at the workplace, well behaved and appropriately dressed.

At the end of the internship, the student should submit a brief report explaining briefly the key learning points and the insights gained. They would also be expected to present and discuss their learning points with their fellow students. A ‘certificate of completion’ from the host organization is essential.
